## A GIFT with many flexibilities

You pay premiums for a certain period of time (known as the premium payment term). After the completion of policy term, you will receive Guaranteed Income (GI) at the end of every month/year for a certain period (known as the Income Period). Please go through the details given below to know about the various flexibilities available to you:

1. Flexibility to choose Guaranteed Income option (Level Guaranteed Income or Increasing Guaranteed Income)

We all know that future costs are expected to go up. Hence, to plan your expenses better, we also give you the option to select whether you want to receive guaranteed income that either
a. remains at the same level throughout the Income Period, or
b. increases every year

If you choose to receive income that increases every year, your guaranteed income will increase every year at a simple interest rate of $5 \%$ p.a.. premiums payable i.e. MoneyBack Benefit

Since your income needs are based on your lifestyle and future goals, we understand that you may want to decide whether you would want some amount of a one-time lump sum benefit coming to you in addition to the Guaranteed Incomes. You can choose to receive any percentage from $0 \%$ to $100 \%$ of the sum total of all annualized premiums payable by you as this lump sum benefit (known as MoneyBack Benefit). You will need to select the percentage of MoneyBack at inception.

How does the flexibility to select a percentage of MoneyBack Benefit help?
Your quantum of income benefit depends on what percentage of MoneyBack you have chosen to receive. The income amount increases with decreasing percentage of MoneyBack opted. If you choose to receive no MoneyBack Benefit (percentage chosen is 0\%), this will give an option to maximize your regular income benefit. On the other hand, choosing $100 \%$ as the percentage, lets you enjoy regular income during the income period and then receive all premiums (annualized) paid back at the end. This lump sum amount can be utilized as a legacy payout for your loved ones. Lest you forget, you have the entire range to choose from!

## 3. Flexibility to choose when you want to receive MoneyBack Benefit

Further, it also becomes critical to receive this MoneyBack Benefit as per your larger life goals which you have fixed a timeline for, in advance. For the same reason, we also give you the flexibility to choose any year, on or after the maturity date of the policy up to the last income year, to receive the MoneyBack Benefit. The MoneyBack Benefit will be payable at the end of the year, as chosen by you.
What does this mean?
Let us take the example of Mr. Bhavesh who is planning to receive income for 30 years. He can choose to receive his MoneyBack Benefit at the end of the policy term i.e. before his first income commences or at the end of 1st year of income payout or 2nd year and so on...

## Please also note:

In case of death of the Life Assured during the Income Period, the Claimant continues to receive the Guaranteed Income and MoneyBack Benefit (if applicable and not paid earlier), as detailed below under 'Death Benefit' section.

## Looking for something more?

4. Flexibility to receive income on any date of your choice with Save the Date:

As we all want to save for the non-negotiable goals in life, we also want to ensure that our savings are used for the intended cause. For the same, we also let you choose any date like your spouse's birthdate, your anniversary date, date of maturity of your policy or any special date of your choice to receive the Guaranteed Income if you have opted to take Guaranteed Income on an annual basis. Please refer to Clause 6 \& 7 under Terms \& Conditions for more details.

## 5. Flexibility to receive all future benefits as a lump sum benefit at a discounted value:

We understand that your financial plan needs to align with your goals and hence should enable you to utilize your money whenever you want and exactly the way you want! For ease of access to the fund, you have an option to receive future benefits by converting them in the form of a lump sum at policy maturity or any time during the income period, at a discounted rate. You can choose to convert all future guaranteed income and MoneyBack Benefit (if applicable and not already received) into a lump sum. This flexibility is also available to the Claimant in case of an unfortunate demise of the Life Assured during the Income Period.

The value of lump sum benefit will depend on when you/ the Claimant exercise the option, and is detailed below:

- On the date of policy maturity: equal to 'Maturity Sum Assured'.
- Any time during the income period after policy maturity date: Future Gls and MoneyBack Benefit (if applicable) discounted at 30 year Government Securities yield $+1.00 \%$, rounded to nearest $0.25 \%$. The yield on 30 -year Government Securities will be sourced from www.bloomberg.com. The discount rate, applicable for commutation to lump sum during income period, will be reviewed twice every year on 1st of June and 1st of December.

Further, kindly note that on payment of all due GI and MoneyBack Benefit, if applicable or the discounted value of future GI and MoneyBack Benefit, if applicable, to you/ Claimant (as applicable), the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

## 6. Low Cover Income Booster:

Your needs can vary based on your financial plan wherein you may want to enjoy either a higher income or a higher sum assured. Hence, at the inception of the policy, you can choose to opt for "Low Cover Income Booster" wherein you will be able to enjoy additional income for opting a lower life cover. Please refer to the details on the same as mentioned below under Death Benefit.

Your benefits will vary based on the different flexibilities chosen by you.
Premium, premium payment term, income period, policy term, Guaranteed Income option, percentage and year of MoneyBack Benefit, and Low Cover Income Booster chosen at inception of policy cannot be changed.

## Death Benefit

In the event the person whose life is covered by this policy (known as the Life Assured) passes away, during the term of the policy, the Death Benefit will be paid out as a lump sum to the person specified (known as the Claimant) in the policy.
Death Benefit is highest of:
a. Sum Assured on Death (defined as Death Benefit multiple X Annualized Premium)
b. $105 \%$ of the Total premiums paid up to the date of death
c. Death Benefit Factor $X$ Maturity Sum Assured $X$ \{number of months for which premiums are paid up to date of death / (12 X Premium Payment Term) \}

Where,

- Annualized Premium means the premium amount payable in a year chosen by the policyholder, excluding the taxes, rider premiums, underwriting extra premiums and loadings for modal premiums, if any.
- Maturity Sum Assured is the discounted value of future Gls and MoneyBack Benefit (if applicable) computed at discount rate of $8.00 \%$ p.a. at the end of the policy term.
- Total Premiums Paid means the total of all premiums received, excluding any extra premium, any rider premium and taxes

In case Low Cover Income Booster benefit is not chosen, the Death Benefit Multiples (as varying by age at entry of the Life Assured) are specified below:

On payment of Death Benefit to the claimant, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

Death Benefit factors, applicable at the inception of the policy, are guaranteed throughout the policy term. Death Benefit factors are mentioned in Appendix I.

For policies issued on minor's life, the date of commencement of risk will be the date of commencement of the policy.

In case of death of the Life Assured during the Income Period, the claimant will continue to receive the Guaranteed Income and MoneyBack Benefit (if applicable and if not paid prior to death). At any time during the Income Period, the Claimant shall have an option to receive the discounted value of future income and MoneyBack Benefit (if applicable and if not already paid) in the form of a lump sum benefit. Please refer to Clause 5 under "A GIFT with many flexibilities".

Let us take few examples to understand the multiple flexibilities available under ICICI Pru GIFT Pro:

## Illustration 1:

Mr. Bhavesh is a 35 -year old who wants to create a second income for himself so that he can plan for his future goals.
He decides to pay an annual premium of ₹ 1 lakh in ICICI Pru GIFT Pro and receive 100\% MoneyBack Benefit in the last year of the Income Period. He chooses to receive a level income throughout the Income Period and does not opt for Low Cover Income Booster and gets a minimum life cover of ₹ 10.70 lakh for 11 years.

In the above example, the frequency of premium payment and Guaranteed Income is annual. Mr. Bhavesh also has the flexibility to receive income on a monthly basis.

If he chooses to receive this income every month, the amount will be multiplied by $96 \%$. In this case, the Guaranteed Income will be ₹ 95,690 for the whole year. He will receive ₹ $95,690 / 12$ = ₹ 7,974 every month for 30 years starting from Feb 15, 2034.

Let's say Mr. Bhavesh considers 80\%, 50\%, 30\% or 0\% as MoneyBack Benefit along with the last income:
The below table shows the corresponding income that Mr. Bhavesh will receive for 30 years:

| MoneyBack Benefit | Annual Income for 30 years |
| :---: | :---: |
| $100 \%$ | ₹ 99,680 |
| $80 \%$ | ₹ $1,01,460$ |
| $50 \%$ | ₹ $1,04,130$ |
| $30 \%$ | ₹ $1,05,910$ |
| $0 \%$ | ₹ $1,08,580$ |

## Illustration 2:

Let's say Mr. Bhavesh from the earlier example wants to receive income that increases every year to meet his future goals.

He decides to pay an annual premium of ₹ 1 lakh in ICICI Pru GIFT Pro and receive 100\% MoneyBack Benefit in the last year of the Income Period and gets a life cover of minimum ₹ 10.70 lakh for 11 years.
He selects Increasing Guaranteed Income option to ensure an increasing Income throughout the income tenure.
The Illustration given below shows the increasing guaranteed income that Mr. Bhavesh will receive.

He gets ₹ $10,00,000$ at the end of $41^{\text {st }}$ year
He starts receiving Guaranteed Income of ₹68,360 every year which will increase by 5\% every year (Simple Interest) ₹ $1,00,000$ p.a. for 10 years

Years $\begin{array}{llllllllllllllllllllll}0 & 1 & 2 & 3 & 4 & 5 & 6 & 7 & 8 & 9 & 10 & 11 & 12 & 13 & 14 & \cdots & \cdots \cdots & \cdots & \cdots & 39 & 40 & 41\end{array}$ Jan 15, 2023 Jan 15, 2032 Jan 15, 2035

L Life cover throughout the policy term of 11 years
He receives
₹ $1,67,482$ as last income

${ }^{\wedge}$ Goods and Services tax and cesses (if any) will be charged extra, as per applicable rates.

## Additional benefits

## Higher Premium Benefit

You will receive higher benefit for contributing more towards your savings goals. As your commitment towards savings increases, you will receive an additional benefit on your Guaranteed Income every year. This additional benefit is expressed as additional guaranteed income rate and is \% of Annualized Premium, provided in the table below:

| Annualized Premium | Premium Payment Term |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| (in ₹) | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 100,000 | 0.00\% | 0.00\% | 0.00\% | 0.00\% | 0.00\% | 0.00\% | 0.00\% | 0.00\% |
| 150,000 | 0.75\% | 0.80\% | 0.80\% | 0.90\% | 0.90\% | 1.00\% | 1.25\% | 1.25\% |
| 300,000 | 1.25\% | 1.40\% | 1.40\% | 1.70\% | 1.70\% | 2.00\% | 2.50\% | 2.50\% |
| 500,000 | 1.50\% | 1.75\% | 2.10\% | 2.25\% | 2.50\% | 3.00\% | 3.25\% | 3.50\% |

For premiums in between band thresholds (i.e. premiums that fall between two adjacent Annualized Premiums mentioned in table above), the additional rate will be linearly interpolated. For annualized premium less than the lowest threshold level i.e. ₹ $1,00,000$, the additional income rates will be same as that at the lowest threshold. For annualized premium more than the highest threshold level i.e. ₹ $5,00,000$, the additional income rates will be same as that at the highest threshold.

## Non-Payment of Premiums: <br> What happens if you stop paying your premiums?

It is recommended that you pay all premiums for the period selected to be able to enjoy all policy benefits. However, at any stage if you stop paying premiums the following shall be applicable:

- If you stop paying premiums in the first two years, no benefits will be payable.
- If you stop paying premiums after you have completed payment of premiums for two years, the policy can continue with reduced benefits.
- In such a case, Paid-up Maturity Benefit or Paid-up Death Benefit will be payable.

## Paid-up Death Benefit

The Paid-Up Death Benefit is higher of

- Paid-up Sum Assured on Death, computed as Sum Assured on Death $X$ \{number of months for which premiums are paid / (12 X Premium Payment Term)\}
- Death Benefit factor X Maturity Sum Assured X \{number of months for which premiums are paid / (12 X Premium Payment Term)\}
On payment of Death Benefit to the Claimant, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

## Paid-up Maturity Benefit

On survival of the Life Assured at the completion of the policy term, the maturity benefit shall be paid in the form of paid-up GI at the end of every month/year, for an income period as chosen by you at inception.
Paid-up Maturity Benefits will be calculated as follows:
Paid-up GI = Annual GI X \{number of months for which premiums are paid / ( $12 \times$ Premium Payment Term) \}
If you have selected Increasing GI option at inception, then the first paid-up GI payable shall be calculated using the above stated formula, and the same shall increase at a simple interest rate of $5 \%$ every year.

Additionally, a paid-up MoneyBack Benefit (if applicable) will be payable at the pre-selected date, where:
Paid-up MoneyBack Benefit = MoneyBack Benefit X \{number of months for which premiums are paid / (12 X Premium Payment Term)\}

Paid-up Gl and Paid-up MoneyBack Benefit (if applicable) will be paid to You/Claimant, as applicable irrespective of whether the Life Assured is alive or not during the income period. On payment of paid-up MoneyBack Benefit (at the pre-selected date) and the last paid-up Gl pay-out, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

You/ Claimant, as applicable, shall have an option to receive the discounted value of future paid-up GI and paid-up MoneyBack Benefit, (if applicable and not paid yet), in the form of a lump sum benefit. The value of lump sum benefit will depend on when you/ the Claimant exercise the option, and is detailed below:

- On the date of policy maturity: equal to paid-up 'Maturity Sum Assured'. where paid up Maturity Sum Assured is the discounted value of future paid up Gls and paid up MoneyBack Benefit (if applicable) computed at discount rate of $8.00 \%$ p.a. at the end of the policy term.
- Any time during the income period after policy maturity date: Future paid-up Gls and paid-up MoneyBack Benefit (if applicable) discounted at 30 year Government Securities yield + 1.00\%, rounded to nearest 0.25\%. The yield on 30 -year Government Securities will be sourced from www.bloomberg.com. The discount rate, applicable for commutation to lump sum during income period, will be reviewed twice every year on 1st of June and 1st of December.

## Policy Revival

You can revive your policy benefits for their full value within five years from the due date of the first unpaid premium by paying all due premiums together with interest before the termination date of the policy.
Revival will be based on prevailing Board Approved Underwriting Policy. Revival interest rate will be equal to $1.50 \%$ plus the prevailing yield on 10 year Government Securities. The yield on 10 year Government Securities will be sourced from www.bloomberg.com. The revival interest rate for July 2023 is $8.59 \%$ p.a. compounded half-yearly. The revival interest rate will be reviewed on the 15th day of every month by the company based on the 10 -year G-Sec yield of one day prior to such review.

Any change in revival conditions will be subject to prior approval from IRDAI and will be disclosed to policyholders.
Once you start paying premiums again, the reduced benefits will be restored to their full value.

## Surrender Benefit

It is recommended that you continue with your policy to avail all benefits. However, at any stage after payment of two years' premium, if you are not able to continue your policy, a surrender value will be payable.
On policy surrender, you will get higher of the following:

- Guaranteed Surrender Value (GSV)
- Special Surrender Value (SSV)

The Guaranteed Surrender Value (GSV) and Special Surrender Value (SSV) will be calculated as follows:

## A. Guaranteed Surrender Value

GSV = GSV factor X Total Premiums Paid.
For details on GSV factors, please refer to Appendix II.
B. Special Surrender Value

SSV = SSV factor X Maturity Sum Assured X \{number of months for which premiums are paid / (12 X Premium Payment Term)\}
The bases for computing the Special Surrender value factors will be reviewed from time to time and the factors applicable to existing business may be revised subject to the prior approval of the IRDAI.

## Taking a policy loan

You can take a policy loan after your policy acquires a surrender value. Loan amount up to $80 \%$ of the surrender value can be availed.
a. For other than in-force and fully paid-up policies, if the outstanding loan amount including interest exceeds the surrender value, the policy will be foreclosed after giving intimation and reasonable opportunity to the policyholder to continue the policy.
b. In the event of failure to repay by the required date, the policy will be foreclosed, the policy will terminate, and all rights, benefits and interests under the policy will stand extinguished. An in-force and fully paid-up policy will not be foreclosed.
c. Loans may be granted on proof of title to the Policy i.e. upon submission of necessary documents like KYC, original policy schedule, loan application form and cancelled cheque.
d. The policy shall be assigned to and be held by us as security for repayment of the loan and interest thereon.
e. Before any Benefits are paid out, loan outstanding together with the interest thereon will be deducted and the balance amount will be payable.
f. Applicable interest rate will be equal to $1.50 \%$ plus the prevailing yield on 10 year Government Securities. The yield on 10 year Government Securities will be sourced from www.bloomberg.com. The loan interest rate for July 2023 is $8.59 \%$ p.a. compounded half-yearly. The basis for computing loan interest will be reviewed from time to time and any change shall be communicated to the policyholders.
g. The loan interest rate will be reviewed on the 15th day of every month by the company based on the 10-year G-Sec yield of one day prior to such review.
h. The basis for computing loan interest will be reviewed from time to time and may be revised subject to the prior approval of the IRDAI.
A fully paid policy is a policy for which all premiums have been paid, as per the premium payment term selected, and no further premiums are due. A premium paying policy is policy for which all due premiums have been paid till date, but future premiums are payable for the rest of the premium payment term.

## Termination of the Policy

We will terminate the policy on the occurrence of any of the below mentioned conditions if:
(i) You expressly surrender the policy
(ii) The policy lapses on account of non-payment of first two full years' premium, and has not been revived within the revival period
(iii) At the end of the Income Period, upon payment of all due Gls and MoneyBack Benefit (if applicable
and if not already paid) or upon payment of the commuted lump sum benefit of all due Gls and MoneyBack Benefit (if applicable and if not already paid)
